Takuma Maeda, MD, PhD

Project Title- Role of Growth-Arrest Specific 6 on Intracranial Aneurysm Rupture

Dear Dr. Maeda,

Congratulations! You have been awarded a Translational Neuroscience Trainee Fast Track grant to support your research in the amount of \$9,792.00 that must be used during fiscal year FY24. You can immediately begin to use these funds and the grant activity number is 455003033323. Jeniece Morales will keep records of your purchases, so please send copies of your purchases to Jeniece so that an accurate and up to date record can be maintained (cc'd to this email). If possible, please purchase items prior to May 1, 2024, so that all expenditures will hit the FY24 funding cycle. If you need to purchase items after May 1, please contact Jeniece directly for assistance with the purchase.

Remember that a final report is due by the end of the fiscal year on 15 June 2024 describing your use of the funds. I wish you continued success with your research project and look forward to hearing about your progress.

Best Regards,

Robert Bowser, Ph.D.
